

Joint AI Acquisition Review

HarborStone Financial Group and QuantaShield AI | Synthetic transaction

Questions for the meeting

Workstream	Buyer question	Startup question
Valuation	Is the requested price supported by ARR, growth and cash flow?	Does the structure recognize strategic value?
Technology	Do model results create measurable customer economics?	Will the buyer preserve product and research capacity?
IP and legal	Are patents, training rights and licenses clean?	Will identified issues be treated with bounded remedies?
Counterparty	Can customers consent and key employees remain?	Can the buyer fund close and honor earnout obligations?

Decision required

Agree on value allocation, closing conditions, the IP and compliance escrow, earnout definitions, seller audit rights, and post-close operating covenants.
